Day 2: ARRIVAL NOSY BE & CHECK IN

On arrival, transfer to your hotel in Nosy Be to check in. Your tour leader will have an opportunity to meet with the Dive team to discuss pick-up times and dive sites for tomorrow's first dives.

Day 3: DIVE & EXPLORE THE UNDERWATER REALM OF MADAGASCAR AND NOSY

Five days of diving Nosy Be! We suggest starting the dives early in the day, to have the afternoon open to explore the immediate area and to enjoy the facilities that your hotel has to offer.

Madagascar is the world's 4th largest island, measuring approximately 1571 km in length and 571 km across. The capital of Madagascar is Antananarivo or 'Tana'.

Nosy Be, also known as the 'Big Island', is situated off the North West coast of Madagascar in the Nosy Be Archipelago with a surface area of almost 300 square kilometres. The Island is better known as the Perfume Island, due to the large cultivations and processing of Ylang-Ylang essential oil. It is a volcanic island with 11 extinct volcanoes, currently acting as natural water reservoirs for cultivation and human consumption. The highest peak, Mount Passot, is 450 metres above sea level. Nosy Sakatia, one of the surrounding Islands is 2 kilometres off the North-West coast of Nosy Be -Scuba Diving at its best. The Lokobe Reserve nature trail is on the South-eastern side of Nosy Be, which has the best walking trails.

Day 08: EXPLORE NOSE BE!

Today there are no more dives done for us to get you safely home. Give your dive gear a chance to dry, and explore nature on land.

Nosy Be is an island off Madagascar's north-western coast. In the southeast, the forests of Lokobe Reserve shelter chameleons, geckos and frogs.

The capital, known as Hell-Ville, has French colonial buildings and a covered market.

Lemuria Land is home to a variety of lemurs, plus reptiles.

Also in the park is a 19th-century distillery still used to extract essential oils from the native ylang-ylang tree.
